

PRITESH BHATIYA

Software Engineer

priteshbhatiya52@gmail.com | +91 9033174261 | [in LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building scalable **SaaS and e-commerce applications** using React.js, Next.js, Node.js, and PostgreSQL. Skilled in developing RESTful APIs, managing state with Redux, and integrating AWS services including **Lambda, S3, Cognito, SQS, SES, and QuickSight**. Experienced in Agile teams, code reviews, and resolving production issues, with a strong focus on performance optimization and clean code. Holds the **AWS Certified Solutions Architect - Associate** certification.

EDUCATION

Master of Computer Applications (MCA) 2022 - 2024 | *GLS University, Ahmedabad* | CGPA: 8.90

Bachelor of Computer Applications (BCA) 2019 - 2022 | *MKBU University, Bhavnagar* | CGPA: 9.10

SKILLS

- **Programming Languages:** C++, Core Java, Python, JavaScript, TypeScript
- **Programming Frameworks:** React.js, Spring Boot, Node.js, Next.js, Django, FastAPI
- **Storage Systems:** MySQL, PostgreSQL, MongoDB
- **Cloud Technologies:** AWS S3, EC2, Lambda, Cognito, SQS, SES, QuickSight
- **Tools:** VS Code, Postman, IntelliJ, Git, Jira
- **Professional Skills:** Problem Solving, Troubleshooting, Debugging, Communication, Team Collaboration

WORK EXPERIENCE

Software Engineer

Aug 2025 - Present | Tech Holding Pvt. Ltd, Ahmedabad, India

- Led development of **scalable full-stack and backend features** using **React.js, Next.js, Node.js**, and **PostgreSQL** for **SaaS and e-commerce platforms**, with a strong focus on performance and reliability.
- Conducted **research and feasibility analysis** for third-party flight data integration, enabling scheduled flight information and real-time status tracking via the **Cirium FlightStats API**.
- Resolved **high-priority production issues**, including item reservation inconsistencies and token-expiry cart failures, delivering hotfixes and ensuring platform stability.
- Improved **API performance** by parallelizing database queries and optimizing function time complexity, significantly reducing response latency.

Associate Software Engineer

May 2024 - July 2025 | Tech Holding Pvt. Ltd, Ahmedabad, India

- Developed and maintained core **full-stack features** using **React.js, Next.js, Node.js**, and **PostgreSQL** across multiple client projects.
- Integrated **AWS services**, including **Cognito** for authentication and **S3** for media storage, to support secure and efficient workflows.
- Collaborated with cross-functional teams in an **Agile environment**, participated in code reviews, and contributed to debugging and troubleshooting production issues.

Software Engineer Intern

Jan 2024 - April 2024 | Tech Holding Pvt. Ltd, Ahmedabad, India

- Contributed to a **Showcase** Hospitality Management System, supporting event creation for matches and ticket sales to end customers through configurable packages and products.

KEY PROJECTS

Global Hospitality Commerce System - Coca-Cola

- Designed a **scalable commerce backend** using **Medusa** (open-source composable platform) with **Node.js** and **PostgreSQL**, enabling modular management of programs, events, products, and guest workflows.
- Configured **AWS Cognito** for secure, invite-based authentication and role-based access across admin, guest, and partner portals.
- Designed and implemented frontend interfaces using **React.js** and **Next.js** for order management, guest invitations, event operations, and real-time status tracking.
- Incorporated **Payload CMS** to enable dynamic content management across the shop and guest portals, including configurable content blocks and **guest badge** creation for enhanced user experience.

- Built **custom SQL-based views** to support complex joins and optimized reporting queries, improving data accessibility for analytics and dashboards.
- Engineered **interactive dashboards and reports** displaying 7-day sales trends, top-selling items, pending orders, and guest arrival/departure insights for operational visibility.
- Leveraged the **Cirium (third-party) API** to enable flight search and **live flight status tracking**, enhancing guest travel coordination and real-time updates.
- Enabled comprehensive **activity logging and auditing** for user, guest, and order actions to improve traceability, monitoring, and system reliability.

CourseKey - Payment Integration Module

- Developed a **frontend payment module** supporting **partial payments and installment plans**, enabling flexible payment options for users and improving payment tracking efficiency.
- Built a **dynamic invoice generation system** with detailed payment history, automated balance calculation, and customizable invoice/payment templates for better financial transparency.
- Implemented **real-time invoice updates**, installment tracking, and payment status indicators to enhance user experience and reduce manual reconciliation.
- Designed responsive and reusable UI components using **React.js, TypeScript, and Material UI**, ensuring scalable and maintainable frontend architecture.
- Managed complex **state handling and form validation** for payment workflows, installment schedules, and invoice data management.
- Delivered critical features within a **tight 2-month deadline** through effective sprint planning, Agile collaboration, and cross-team coordination.

CERTIFICATIONS

- [AWS Certified Solutions Architect - Associate](#)
- [Salesforce Certified Associate](#)
- [Full Stack Development Foundation](#)

ACHIEVEMENTS

- **1st Place** - Technomark Solutions Hackathon: Collaborated in a team to design and develop an e-commerce and e-learning web platform, securing first place among competing teams.
